Nutfield; Our Village Since Domesday

The first edition of this book was published in the year 2000 for Nutfield's Millennium celebrations. 650 copies were printed, and were sold within a few weeks. Since then there has been a steady demand for copies. Six years later Nutfield History Group proposes to print a second edition.

The bulk of the first edition was sold on the subscriber system. In return for advance payment, subscribers were given a discount off the normal price, and their names were printed in the book. We plan to use the same system for the second edition.
